# Upload PPT file

- Choose needed file (at format .ppt or .pptx)
- Make sure that it matches the allowable size
- If you want to replace the existing slides check the box «Replace existing slides»
- Click «OK»

# Publish Application

- Go to Applications tab
- Choose created application

The screenshot shows a web application interface with a top navigation bar. The 'Applications' tab is highlighted with a red box. Below the navigation bar, the page title is 'Applications Home'. There is a 'View:' dropdown menu set to 'All Applications' and a 'Go!' button. To the right of the 'Go!' button are links for 'Clone' and 'Create New View'. Below this is a section titled 'Recent Applications' with a 'New' button and a 'Recently Viewed' dropdown. A table lists the recent applications. The first row, 'Example Application', is highlighted with a red box. The table has columns for Application, Record Type, Active, Version, Description, and Last Modified By.

Application	Record Type	Active	Version	Description	Last Modified By
<a href="#">Example Application</a>	Application	✓	1.00		<a href="#">John Smith</a> , 7/2/2015 3:27 PM

# Publish Application

- Click «Renew Slides» in related list «Slides»
- Wait for 2-3 minutes
- Click «Publish Application» in top of the page
- Do a full sync on the tablet

The screenshot shows the CT MOBILE Application Editor interface. On the left, a sidebar menu is visible with the following options: Templates, Import PPT, **Save** (highlighted with a red box), Convert, Undo, Redo, Cut, Copy, Paste, and Delete. The main area is titled 'Application Editor' and contains a list of applications. The first application is 'Volma', which is active. A red box highlights the 'New' button next to 'Volma'. Below the application list, there is a section for 'Slides' with a table of slide details.

Interactive presentations

Enhance your slides with graphics and data gathering capabilities – you can add various types of widgets that will help you deliver your message and collect important data simultaneously. Moreover, presentations are no longer linear: replies specific slides will appear depending on HCP.

by CT Mobile

# Добавление текста

The screenshot displays the Impress presentation editor interface. At the top, a toolbar contains icons for various elements: Text (Текст), Picture (Картинка), Video (Видео), Link (Ссылка), Shapes (Фигуры), Widgets (Виджеты), Background (Фон), and Canvas (Холст). On the right side, there are buttons for Effects (Эффекты) and Impress. The main workspace shows a presentation slide with an orange hexagonal pattern background. The slide content includes the text "Ваш текст" (Your text) in a blue box, followed by "Trustful data from f" in orange. Below this is a video player titled "CT Mobile - Salesforce Based CLM Solution for Your Business" showing a video of a computer monitor and sticky notes. At the bottom of the slide, there is a paragraph of text: "As all presentations are interactive, slide content can be easily prepared in an interactive manner, which allows HCPs to be deeply engaged in discussion and KPIs." A light blue speech bubble with the text "Параметры текста" (Text parameters) points to the text editing toolbar, which includes options for font face (Lato), size (72), and color.

# Добавление виджета-сортировка

The screenshot displays a software interface with a top toolbar containing icons for Text, Image, Video, Link, Shapes, Widgets, Background, and Canvas. On the right, there are buttons for Effects and Impress. The main workspace features a large orange hexagonal pattern on the left and a white area on the right. A sorting widget is positioned in the white area, consisting of three horizontal bars labeled 'Причина 1', 'Причина 2', and 'Причина 3'. Below these bars are three small input fields with values 159, 264, and 1. A light blue callout bubble points to the widget with the text 'Настройки вида виджета'. To the right of the workspace is a 'Сортировка' (Sorting) panel. This panel includes a 'Стиль' (Style) dropdown menu set to 'ClearMosaic', a 'Данные' (Data) section with three rows of checkboxes and input fields labeled 'Причина 1', 'Причина 2', and 'Причина 3', and 'Add' and 'Remove' buttons at the bottom. A second light blue callout bubble points to the 'Add' button with the text 'Добавляйте элементы сортировки'.

# Редактор презентаций

The screenshot shows the CT MOBILE presentation editor interface. The top toolbar includes buttons for 'Текст' (Text), 'Картинка' (Image), 'Видео' (Video), 'Ссылка' (Link), 'Фигуры' (Shapes), 'Виджеты' (Widgets), 'Фон' (Background), 'Холст' (Canvas), 'Эффекты' (Effects), and 'Impress'. A dropdown menu is open on the left, showing options like 'Шаблоны' (Templates), 'Импорт PowerPoint' (Import PowerPoint), 'Сохранить' (Save), 'Конвертировать' (Convert), 'Отменить' (Undo), 'Move Components', 'Повторить' (Repeat), 'Вырезать' (Cut), 'Копировать' (Copy), 'Вставить' (Paste), and 'Удалить' (Delete). Two callout boxes provide instructions: one points to the 'Move Components' button with the text 'Нажмите для появления главного меню' (Click for the main menu to appear), and another points to the 'Impress' button with the text 'Нажмите для предварительного просмотра презентации' (Click for a preview of the presentation). The main slide area displays the title 'Interactive presentations' and a paragraph: 'Enhance your slides with graphics and data gathering capabilities – you can add various types of widgets that will help you deliver your message and collect important data simultaneously. Moreover, presentations are no longer linear: replies specific slides will appear depending on HCP.' The slide is signed 'by CT Mobile'.
